SEE REVERSE SIDE FOR TERMS AND CONDITIONS FOR NATURAL GAS SERVICE

Unicoi County Gas Utility District
TERMS AND CONDITIONS
For Natural Gas Service

Unicoi Natural Gas Utility District (hereinafter referred to as the Utility) agrees to furnish natural gas service to the customer named herein at the address listed and the customer agrees to purchase natural gas services under the terms and conditions outlined herein and other conditions which the Utility may prescribe. The Utility does not discriminate in operational practices and provides services to all persons without regard to race, color, religion, sex or national origin.

The terms of this agreement shall be binding upon the executors, administrators and estate of the original parties. It is agreed that if the customer sells, leases or otherwise no longer requires natural gas services the customer will notify the Utility in order that it may discontinue service or execute a new agreement with a successor customer.

It is expressly understood between the parties of this agreement that services provided by the Utility shall be supplied only to the applicant at the address named in this agreement. As a condition of service the property owner shall provide at No Cost to the Utility a location suitable to the Utility for the installation of the gas meter and other related equipment and provide the Utility a suitable easement of ingress and regress for said location. The customer agrees to keep the easement on the property at the service address accessible and free from obstruction to the Utility's meter and related equipment. Upon notification to the customer from the Utility the customer agrees to remove any obstruction to Utility access to maintenance and meter reading. Should such obstructions not be removed by the customer within reasonable time as requested by the Utility, natural gas service is subject to discontinuance. Service shall not be reinstated until such obstructions are removed to the satisfaction of the Utility and all bills, reconnection fees, and other applicable fees are paid to the Utility by the customer.

Upon reasonable notice and at reasonable times, the Utility, or its agents, reserve the right to make inspection of all equipment and facilities installed by the Utility on the customer's premises. The Utility shall have the right to restrict, control, or discontinue service at any time during emergencies or repairs. The Utility shall not be liable for failure to furnish service for any reason beyond its control or for any loss, injury, or damage to plumbing or property resulting from such service curtailment or discontinuance.

The meter and other related equipment serving the customer's service address shall remain the property of the Utility and shall not be modified, changed, or tampered with without express permission from an authorized representative of the Utility.

All gas piping equipment and other devices installed on the downstream customer's side of the gas meter is the responsibility of the customer. The Utility assumes no liability for the operation, or maintenance, of the customer's plumbing or equipment.

The Utility reserves the right to discontinue service for failure to pay, or for other reasons in accordance with the Utility applicable rules and regulations. Should such service be discontinued, service shall not be restored until such time as all applicable bills and fees are paid or satisfactory arrangements are made with the Utility. Restoration of service must be made by an authorized representative of the Utility.

Customer agrees this agreement is an application for natural gas service and should conditions subsequently be found that in the opinion of the Utility gas service cannot be supplied, the liability of the Utility to the customer shall be limited to the return of any payment or fees made by the customer to the Utility. Should the customer after signing this agreement and after the Utility makes natural gas service available, not take service within 6 calendar months following the date service was made available to the premises, it is agreed between the parties that the customer shall reimburse the Utility for the costs incurred by the Utility to make natural gas service available to the premises. Such costs will be accessed on the same basis as the Company's excess footage formula applicable at the time.
